INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Kentfield Fire Protection District
Kentfield, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and General Fund of the Kentfield Fire Protection District, California (District), as of and for the year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and General Fund of the District as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other required supplementary information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis provides an overview of the District's financial activities for the fiscal year ended June 30, 2021. Please read it along with the District's financial statements, which begin on page 7.

FINANCIAL HIGHLIGHTS

The District's net position increased by $1,442 thousands during 2021. District-wide revenues increased by $449 thousands and total expenses increased by $458 thousands.

Included in the required supplemental information section is a budgetary comparison schedule. As indicated in the budgetary comparison schedule on page 39, our revenues were higher than budgeted amounts by $648 thousands and operating expenditures were less than budgeted amounts by $754 thousands.

USING THIS ANNUAL REPORT

This annual report consists of financial statements for the District as a whole with more detailed information about the District's general fund. The statement of net position and the statement of activities provide information about the activities of the District as a whole and present a long-term view of the District's finances (they include capital assets and long-term liabilities). The fund financial statements present a short-term view of the District's activities (they include only current assets expected to be collected in the very near future and liabilities expected to be paid in the very near future).

THE DISTRICT AS A WHOLE

One important question asked about the District's finances is, "Is the District better or worse off as a result of the year's activities?" The information in the government-wide financial statements helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting (and reports depreciation on capital assets), which is similar to the basis of accounting used by most private-sector companies.

The change in net position (the difference between total assets and total liabilities) over time is one indicator of whether the District's financial health is improving or deteriorating. However, one must consider other nonfinancial factors in making an assessment of the District's health, such as changes in the economy, changes in the District's tax base and assessed valuations to assess the overall health of the District.

Changes in the District's Net Position (in thousands) were as follows:

	2021	2020	Increase (decrease)
Current assets	$ 9,322	$ 7,564	$ 1,758
Noncurrent assets	5,124	5,385	(261)
Total assets	14,446	12,949	1,497
Deferred outflows	2,751	2,730	21
Current liabilities	630	645	(15)
Noncurrent liabilities	9,079	8,791	288
Total liabilities	9,709	9,436	273
Deferred inflows	1,149	1,346	(197)
Net position:			
Net investment in capital assets	4,388	4,366	22
Restricted	209	-	209
Unrestricted	1,741	530	1,211
Total net position	$ 6,338	$ 4,896	$ 1,442

The increase in current assets is primarily a result of normal changes in working capital. The increase in liabilities were primarily due to increases in pension liabilities offset by decreases in OPEB liabilities. The decrease to deferred inflows were primarily due to the decreases in OPEB and pension liabilities. Restricted net position was due to restricted pension investments and Measure C special revenue.

Changes in the District's revenues (in thousands) were as follows:

	2021	2020	Increase (decrease)
General revenues			
Property taxes	$ 6,402	$ 5,892	$ 510
Use of money and property	208	269	(61)
Total general revenues	6,610	6,161	449
Program revenues			
Charges for services	1,145	445	700
Total program revenues	1,145	445	700
Total revenues	$ 7,755	$ 6,606	$ 1,149

Property tax revenue increased due to higher assessed valuations. Charges for services increased by approximately $700,000 primarily due to an increase in the OES reimbursements for out of county incidents.

Changes in the District's expenses and net position (in thousands) were as follows:

	2021	2020	Increase (decrease)
Personnel	$ 5,445	$ 4,906	$ 539
Material and services	552	621	(69)
Depreciation	284	287	(3)
Interest	32	41	(9)
Total expenses	6,313	5,855	458
Less: Program revenues	1,145	445	700
Net expenses	5,168	5,410	(242)
General revenues	6,610	6,161	449
Change in net position	1,442	751	691
Beginning net position	4,896	4,145	751
Ending net position	$ 6,338	$ 4,896	$ 1,442

The increase in personnel costs were primarily due to the increase costs associated with the increase in OES reimbursements for out of county incidents.

FUND FINANCIAL STATEMENTS

The fund financial statements provide detailed information about the District's general fund.

The fund financial statements provide a short-term view of the District's operations. They are reported using an accounting basis called modified accrual, which reports cash and other short-term assets and liabilities (receivables and payables) that will soon be converted to cash or will soon be paid with cash.

As shown on page 11, the fund balance of the general fund increased by $1,770 thousands. On page 12 there is reconciliation between the fund balance increase and the change in net position.

CAPITAL ASSET AND DEBT ADMINISTRATION

Depreciation is a systematic approach to allocate the cost of capital assets over their estimated useful lives. The District's accounting policies are disclosed in Note 1 and a summary of changes in capital assets is reported in Note 3.

Details about our debt are shown in Note 4 in the financial statements.

ECONOMIC OUTLOOK

The Kentfield Fire Protection District's financial position continues to be sufficient to maintain a high level of service to its constituents. The District's financial planning and fiscal forecast continues to be based on sound and conservative calculations of economic trends.

Kentfield Fire Protection District is funded primarily through property tax revenues and since the real estate market has remained surprisingly strong and resilient, we have not experienced immediate financial impacts from the COVID 19 pandemic. The District is projecting a slight revenue growth in 2021 through 2022. This assumption is based upon recent trends in real property values that have continued to increase, but not as robust as in prior years. In addition, there is the unknown COVID-19 impact on future property tax revenues. The strong demand for housing can be attributed to high rental costs, low interest rates, and a tight housing supply. Whether this trend will continue, remains to be seen and depends on the recovery of jobs and businesses lost during the pandemic, housing supply, and interest rates.

The economic condition of the District as it appears on the balance sheet reflects financial stability and the potential for organizational growth. Given the difficulty in predicting how all of these factors will unfold over the next few years, the District believes the best course of action is to continue its policy of fiscal responsibility by closely monitoring and reviewing all areas where we can reduce costs and/or increase revenues. We will continue to maintain appropriate financial reserves in accordance with our commitment to pay down our unfunded retirement liabilities while providing for facilities and infrastructure needs, apparatus replacement, and equipment needs to ensure our crews have the tools they need to maintain a high level of service to our community.

REQUESTS FOR INFORMATION

This basic financial statement is to provide citizens, taxpayers, and creditors with a general overview of the District's finances.

Please address any questions about this report or requests for additional financial information to the address on our letterhead.

Respectfully submitted,

Mark Pomi

KENTFIELD FIRE PROTECTION DISTRICT
RECONCILIATION OF THE BALANCE SHEET
OF GENERAL FUND TO THE STATEMENT OF NET POSITION
AS OF JUNE 30, 2021

Total governmental fund balance	$9,084,126
Amounts reported for *governmental activities* in the Statement of Net Position are different because:	
Property taxes receivable that are not available to pay current period expenditures and therefore are deferred in the fund balance sheet	85,149
Capital assets used in governmental activities are not financial resources and therefore are not reported in fund balance sheet	5,123,747
Some assets (liabilities) are not due and receivable (payable) in the current period and therefore are not reported as fund assets (liabilities)	
Net pension liability	(7,283,568)
Deferred outflows related to pension	1,974,025
Deferred inflows related to pension	(498,096)
Deferred outflows related to OPEB	776,491
Deferred inflows related to OPEB	(651,359)
Net OPEB liability	(929,936)
Capital lease obligations	(735,711)
Compensated absences	(606,782)
Net position of government activities	$6,338,086

See accompanying notes to basic financial statements

KENTFIELD FIRE PROTECTION DISTRICT
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES - GENERAL FUND
FOR THE YEAR ENDED JUNE 30, 2021

REVENUES:	
Property taxes	$6,402,767
Intergovernmental	962,505
Use of money and property	207,984
Charges for services	181,972
Miscellaneous	39
Total revenues	7,755,267
EXPENDITURES:	
Current:	
Public Safety:	
Salaries and benefits	5,094,779
Material and services	526,278
Capital outlay	48,192
Debt Service:	
Principal	283,923
Interest	32,107
Total expenditures	5,985,279
NET CHANGE IN FUND BALANCE	1,769,988
FUND BALANCE	
Beginning of year	7,314,138
End of year	$9,084,126

See accompanying notes to basic financial statements

KENTFIELD FIRE PROTECTION DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GENERAL FUND TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2021

Net change in fund balance	$1,769,988
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental Funds report capital outlays as expenditures, however in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Capital expenditures capitalized	22,493
Depreciation expense	(284,039)
Revenues in the statement of activities that do not provide current resources are not reported as revenue in the fund financial statements (net change)	
Property taxes	(331)
Debt principal transactions reported in the governmental fund statement of revenue, expenditures and changes in fund balance are not considered an operating activity in the statement of activities (but only as changes in liabilities)	
Payment to reduce capital lease obligations	283,923
Expenditures reported in the modified accrual statement of revenues, expenditures and changes in fund balance are recognized in the period incurred if they are to be paid from current financial resources. Expenses reported in accrual basis statement of activities are recognized when incurred, regardless of the timing of the payment:	
Net pension liability, and related deferred inflows and outflows of resources	(562,509)
Net OPEB liability, and related deferred inflows and outflows of resources	279,764
Accrued compensated absences	(67,246)
Change in net position	$1,442,043

See accompanying notes to basic financial statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Kentfield Fire Protection District (the District) is a separate governmental unit established as a special district of the State of California. The purpose of the District is to provide fire protection, emergency medical and related services to Kentfield and the surrounding area. A five-person Board of Directors, elected by the citizens, governs the District. The District's legal authority and responsibilities are contained in the State of California Health and Safety Code under the "Fire Protection District Law of 1987".

INTRODUCTION

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations.).

The District presents its financial statements using the reporting model for special purpose governments engaged in a single government program. This model allows the government-wide and fund financial statements to be combined using a columnar format that displays reconciling items on the face of the financial statements rather than in separate schedules.

BASIC FINANCIAL STATEMENTS GOVERNMENT-WIDE STATEMENTS

The government-wide financial statements include all of the activities of the District. The District has no component units (other governments under the District's oversight or control). The statement of net position and the statement of activities display information about the reporting government as a whole. They display the District's activities on a full accrual accounting basis and economic resource measurement focus.

The statement of net position includes long-term assets as well as long-term debt and other obligations. The District's net position is reported in two parts: (1) net investment in capital assets and (2) unrestricted net position.

The activities of the District are supported primarily by general government revenues (property taxes and intergovernmental revenues). The statement of activities presents gross expenses (including depreciation) and deducts related program revenues, operating and capital grants to indicate the net cost of operations. Program revenues include (a) fees and charges paid by recipients for services and (b) operating grants include operating-specific and discretionary (either operating or capital) grants while capital grants reflect capital- specific grants.

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net Position resulting from the current year's activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND FINANCIAL STATEMENT STATEMENTS

The financial transactions of the government are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self- balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resource, assigned or unassigned resources, fund balance, revenues and expenditures.

The District uses the following fund types:

Governmental funds are focused on the determination of financial position and changes in financial positions (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

Accrual

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. “Available” means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

FINANCIAL STATEMENT AMOUNTS

Cash and cash equivalents

The District has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with its fiscal agent (County of Marin).

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

Investments are stated at fair value (quoted market price).

Capital assets

Capital assets purchased or acquired with an original cost of $1,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

• Buildings and improvements	40 years
• Fire apparatus	20- 25 years
• Other vehicles	10 years
• Furniture, fixtures and equipment	3-20 years

Artwork donated to the District is not expected to decline in value and, therefore, is not depreciated. The District owns no infrastructure assets meeting the criteria for capitalization.

Compensated Absences

The District accrues accumulated unpaid vacation and sick leave when earned (or estimated to be earned) by the employee.

In accordance with an agreement with the Kentfield Association of Professional Firefighters, the District is obligated to provide the following compensated absence benefits:

Sick leave Shift employees of the District earn sick leave at 12 hours per month (one-half shift) and may accumulate up to 2,880 hours. Management and administrative employees earn 8 hours per month. Effective June 30, 2010, employees with 15 years of service receive at retirement or death a one-time payment equal to 50% of the value of accumulated sick leave.

Vacations Shift personnel earn vacation shifts at a rate of 6 to 13 shifts per year, depending on length of service. The District's two management and administrative employees earn from 10 to 25 days per year, depending on length of service. Vacations may be accumulated and carried forward from year to year subject to a maximum one year's allowance plus nine shifts (reduced by compensatory time accumulated) and two years' allowance (400 hours) for non- management administrative personnel.

Compensatory time-off All District personnel may accumulate accrued overtime pay at one and one-half times their basic pay rate. Accumulated compensatory time is limited to 9 shifts. Amounts in excess of 9 shifts are paid to the employee.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are inputs – other than quoted prices included within level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

If the fair value of an asset or liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Property taxes

The County of Marin levies taxes and places liens on real property as of January 1 on behalf of the District. Secured property taxes are due the following November 1 and March 1 and become delinquent April 10 and December 10, for the first and second installments, respectively. Unsecured property taxes are levied throughout the year.

As provided by the California Revenue and Taxation Code, the County of Marin advances the District its share of the annual gross levy of secured property taxes and special assessments. In consideration, the District gives the County of Marin its rights to penalties and interest on delinquent property tax receivables and actual proceeds collected.

Special fire tax charges are assessed by the District Board of Directors before September 1 and adopted by resolution. These special tax charges are incorporated on property tax bills, and therefore are attached as an enforceable lien on real property located within the District.

Fund balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Governmental accounting principles provide that fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned. The Fire Chief is authorized as the designee to assign amounts to a specific purpose. The District's policy is that committed and assigned fund balances are considered to have been spent first before unassigned fund balances are spent.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Nonspendable – This component includes amount that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The District does not have a nonspendable fund balance.

Restricted – This component consists of amounts that have constraints placed on them either externally by third-parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation. At June 30, 2021, $113,497 of fund balance was restricted to be used for purposes as established by the Marin Wildfire Prevention Authority (MWPA) and $95,808 was restricted to be used for prefunding the District's contributions to retirement plan.

Committed – This component consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision making authority which includes ordinances and resolutions. Those committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed previously to commit those amounts. The District does not have any resources that meet this component of fund balance.

Assigned – This component consists of amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The authority for assigning fund balance is expressed by the Board of Directors, Fire Chief or their designee as established in the District's fund balance policy.

Unassigned – This classification represents amounts that have not been restricted, committed or assigned to specific purposes within the general fund.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

OPEB Liabilities, OPEB Expenses and Deferred Outflows/Inflows of Resources Related to OPEB

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the California Employers' Retiree Benefit Trust (CERBT). For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The basic financial statements have been prepared in conformity to generally accepted accounting principles and therefore include amounts based on informed estimates and judgments of management. Actual results could differ from those estimates.

GASB Pronouncements

The following Governmental Accounting Standards Board (GASB) pronouncements were effective in fiscal year 2020-21:

In January 2017, GASB issued GASB Statement No. 84, Fiduciary Activities. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of the statement are effective for reporting periods beginning after December 15, 2019. GASB Statement No. 84 did not have an effect on the District's fiscal year 2020-21 financial statements.

In August 2018, GASB issued GASB Statement No. 90, Majority Equity Interests. The objectives of this Statement are to improve the consistency of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of the statement are effective for reporting periods beginning after December 15, 2019. GASB Statement No. 90 did not have an effect on the District's fiscal year 2020-21 financial statements.

In June 2020, GASB issued GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The requirements in paragraph 4 of this Statement as it applies to defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans and paragraph 5 of this Statement are effective immediately. There was no significant impact from paragraph 4 and 5 on the District's financial statements in fiscal year 2020-21. Paragraphs 6 through 9 of this Statement are effective for reporting periods beginning after June 15, 2021. The District is in the process of determining the impact GASB Statement No. 97, paragraph 6 through 9, will have on its financial statements.

NOTE 2 – CASH AND CASH EQUIVALENTS

The District maintains most of its cash in the County of Marin pooled investment fund for the purpose of increasing interest earnings through pooled investment activities. The District's position in the pool is the same as the value of the pool shares. Interest earned on the investment pool is allocated quarterly to the participating funds using the daily cash balance of each fund. This pool, which is available for use by all funds, is displayed in the financial statements as "Cash and Cash Equivalents."

The County Pool includes both voluntary and involuntary participation from external entities. The State of California statutes require certain special districts and other governmental entities to maintain their cash surplus with the County Treasurer.

The County's investment pool is not registered with the Securities and Exchange Commission as an investment company. Investments made by the Treasurer are regulated by the California Government Code and by the County's investment policy. The objectives of the policy are in order of priority, safety, liquidity, yield, and public trust. The County has established a treasury oversight committee to monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the Board of Supervisors review and approve the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the members of the oversight committee and the investment pool participants every month. The report covers the types of investments in the pool, maturity dates, par value, actual costs and fair value.

Cash and cash equivalents consist of the following:

County of Marin pooled investments	$8,356,564
Cash in banks	718,160
Petty cash	200
Total	$9,074,924

The District is a participant of the California Employers' Pension Prefunding Trust (CEPPT) Fund. This trust was established to allow participants to prefund employer contributions to defined benefit pension systems for eligible California public agencies. At June 30, 2021, the District's investments in the CEPPT Strategy 2 Fund amounted to $95,087

INTEREST RATE RISK

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Normally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

NOTE 2 – CASH AND CASH EQUIVALENTS (Continued)

Information about the sensitivity of the fair values of the District's investments (including investments held by trust) to market interest rate fluctuations is as follows:

Investment Type	12 Months or Less	Total
County of Marin pooled investments	$8,356,564	$8,356,564
CEPPT Strategy 2 Fund	95,087	95,087
Total Investments	$8,451,651	8,451,651
Cash in banks		718,160
Petty cash		200
Total Cash and Investments		$9,170,011

In accordance with its investment policy, the County manages its exposure to declines in fair values by limiting the weighted average maturity of its investment pool to 543 days, or 1.5 years. At June 30, 2021, the County's investment pool had a weighted average maturity of 218 days.

CREDIT RISK

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

State law and the County's Investment Policy limits investments in commercial paper, corporate bonds, and medium term notes to the rating of "A" or higher as provided by Moody's Investors Service or Standard & Poor's Corporation. The County's Investment Policy limits investments purchased by Financial Institution Investment Accounts, a type of mutual fund, to United States Treasury and Federal Agency obligations with a credit quality rating of "AAA."

At June 30, 2021 the CEPPT Strategy 2 Fund was not rated.

NOTE 2 – CASH AND CASH EQUIVALENTS (Continued)

CONCENTRATION OF CREDIT RISK

This is the risk of loss attributed to the concentration of the District's investment in a single issuer.

The following is a summary of the concentration of credit risk by investment type as a percentage of Marin County investment pool's fair value at June 30, 2021.

Marin County Investment Pool	Percent of portfolio
Federal agency - coupon	25%
Federal agency - discount	73%
Money market funds	2%
	100%

CUSTODIAL CREDIT RISK

For investments and deposits held with safekeeping agents, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or deposits that are in the possession of an outside party. At year end, the County's investment pool had no securities exposed to custodial credit risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District would not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the District's name, and held by the counterparty. The District's investment securities are not exposed to custodial credit risk because all securities are held by the District's custodial bank in the District's name.

FAIR VALUE HIERARCHY

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The County Treasurer's Pool is classified in Level 2. The County Treasurer's Pool is valued based on the fair value factor provided by the County of Marin, which is calculated as the fair value divided by the amortized cost of the investment pool.

The CEPPT Strategy 2 Fund is classified in Level 2. The CEPPT Strategy 2 Fund is valued based on the market value of the underlying securities.

NOTE 2 – CASH AND CASH EQUIVALENTS (Continued)

LOCAL AGENCY INVESTMENT FUND

The County is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The book value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

The total amount invested by all public agencies in LAIF as of June 30, 2021 was $37 billion. LAIF is a part of the California Pooled Money Investment Act (PMIA), which at June 30, 2021 had a portfolio balance of $193.3 billion. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, United States Treasury Notes and Bills, and corporations. The average maturity of PMIA investments was 291 days as of June 30, 2021.

NOTE 3 – CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2021, was as follows:

	Balance June 30, 2020	Additions	Dispositions	Balance June 30, 2021
Nondepreciable capital assets:				
Land	$10			$10
Artwork	35,000			35,000
Total nondepreciable capital assets	35,010			35,010
Capital assets being depreciated:				
Buildings and building improvements	5,907,296			5,907,296
Fire apparatus	1,723,726			1,723,726
Vehicles	150,924			150,924
Equipment and furniture	947,663	$22,493	($127,529)	842,627
Total capital assets being depreciated	8,729,609	22,493	(127,529)	8,624,573
Less accumulated depreciation for:				
Buildings and building improvements	1,779,751	148,273		1,928,024
Fire apparatus	799,850	78,489		878,339
Vehicles	90,647	11,675		102,322
Equipment and furniture	709,078	45,602	(127,529)	627,151
Total accumulated depreciation	3,379,326	284,039	(127,529)	3,535,836
Total depreciable assets	$5,350,283	($261,546)		$5,088,737

In addition to the fire apparatus listed above, the District utilizes a fire engine owned by the State of California to provide fire protection services.

NOTE 4 – NONCURRENT LIABILITIES

Compensated Absences Payable

Accrued compensated absences are not due and payable in the current period and therefore, are not considered liabilities of the general fund in the fund financial statements. The government-wide statement of net position reports the liability, segregating the amount expected to be paid within one year as a current liability.

Balance as of June 30, 2020	$539,536
Increases during the year	257,098
Decreases during the year	(189,852)
Balance as of June 30, 2021	606,782
Less amount due within 1 year	189,852
Amount due after 1 year	$416,930

Direct Borrowings - Capital Lease Obligations

The following is a schedule of changes in capital lease obligations during the year:

	Fire Station Modernization	Solar Equipment	Total
Balance as of June 30, 2020	$1,013,066	$6,568	$1,019,634
Decreases during the year	(277,355)	(6,568)	(283,923)
Balance as of June 30, 2021	$735,711		$735,711

<u>Solar Equipment Capital Lease</u>

In December 2008, the District entered into a capital lease arrangement with Municipal Finance Corporation (MFC) pursuant to approval from the Internal Revenue Service for the issuance of Clean Renewable Energy Bonds in the principal amount of $153,845 for the purpose of obtaining zero interest financing to purchase solar equipment. The arrangement provided for a cash payment to the District (to be used to acquire the equipment) in consideration for a lease of that equipment to MFC. MFC then subleased the equipment to the District in exchange for a stream of annual payments. The District's lease payments to the Corporation were payable from any source of legally available funds. The transaction has been reported as a capital lease in these financial statements. During fiscal year 2010-11, the District made additional lease repayments of approximately $53,000. The District made the final least repayment in fiscal year 2020-21.

NOTE 4 – NONCURRENT LIABILITIES (Continued)

Fire Station Modernization Capital Lease

In January 2009, the District also entered into a similar lease financing arrangement with Municipal Finance Corporation (MFC) for the purpose of obtaining financing for the modernization of its fire station. The capital lease was for $4,030,000 and it also is payable from any source of legally available funds. During 2009-10, the District made additional lease repayments of approximately $480,000.

In June 2014, the District amended the fire station lease agreement with a bank in the amount of $2,494,425. Interest rate is 3.40% per annum. Interest and principal payments are due each June 30 and December 30. Final payment is due December 30, 2023.

The capital lease is secured by the fire station at 1004 Sir Francis Drake Boulevard, Kentfield, California. The outstanding lease amount contains a provision that in an event of default, MFC may terminate the lease, re-lease all or any portion of the Leased Property or enforce payments without termination of the lease holding the District liable for the payment of all lease payments.

Following is a summary of the District's capital leases:

	Fire Station Modernization	Solar Equipment
Date of lease	June 30, 2014	December 1, 2008
Semi-annual payment	$154,730	
Annual Payment		$6,567
Number of payments	19	13
Effective annual interest rate	3.40%	0.87%
Financing costs		$7,692
Cost of building/equipment	$4,934,000	$68,000

Future debt service are as follows:

Year ending June 30	Direct Borrowings Fire Station Modernization
2022	$309,461
2023	309,461
2024	154,731
Total payments	773,653
Less: Interest	37,942
Principal	735,711
Less: Amount due within one year	(286,866)
Amount due after one year	$448,845

NOTE 5 – FUND BALANCE

The following are assigned fund balances:

Assigned for:	
Apparatus replacement	$1,525,572
Building replacement	747,899
Compensated absences	180,973
Contingencies and emergencies	395,000
LDH (Hose)	30,000
Marin Emergency Radio Authority	37,580
PERS unfunded liability	1,180,490
OPEB	497,689
CEPPT CalPERS Pension Trust	750,000
General insurance deductible	20,000
Health insurance	25,000
Hydrants and mains	10,000
Mapping and planning	60,000
Heavy rescue equipment	80,000
Debt service sinking fund	625,000
Total	$6,165,203

NOTE 6 – DEFERRED COMPENSATION PLAN

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code (IRC) Section 457. This plan, available to all permanent District employees, permits employees to defer a portion of their current salary until future years.

The laws governing deferred compensation plan assets require plan assets to be held by a Trust for the exclusive benefit of plan participants and their beneficiaries. Since assets held under these plans are not the District's property and are not subject to District control, they have been excluded from these financial statements.

NOTE 7 – PENSION PLAN

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 7 – PENSION PLAN (Continued)

General Information about the Pension Plan

The District's Miscellaneous and Safety Plan are part of the public agency cost-sharing multiple-employer defined benefit pension plan (PERF C), which is administered by CalPERS. PERF C consists of a miscellaneous pool and a safety pool (also referred to as "risk pools"), which are comprised of individual employer miscellaneous and safety rate plans, respectively. Individual employers may sponsor more than one miscellaneous and safety rate plan. The employer participates in one cost-sharing multiple-employer defined benefit pension plan regardless of the number of rate plans the employer sponsors. The District sponsors two rate plans (other) within the miscellaneous risk pool and two rate plans (fire) within the safety risk pool.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1959 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plan's provisions and benefits in effect at June 30, 2021, are summarized as follows:

	Miscellaneous Tier 1	Miscellaneous Tier 2	Miscellaneous PEPRA
Benefit formula	3% @ 60	2.5% @ 55	2% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	60	55	62
Monthly benefits, as a % of eligible compensation	3%	2.5%	2%
Required employee contribution rates	N/A	8.000%	6.750%
Required employer contribution rates	N/A	11.743%	7.732%

	Safety	Safety PEPRA
Benefit formula	3% @ 55	2.7% @ 57
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	55	57
Monthly benefits, as a % of eligible compensation	3%	2.7%
Required employee contribution rates	9.000%	13.750%
Required employer contribution rates	23.558%	13.884%

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

NOTE 7 – PENSION PLAN (Continued)

For the year ended June 30, 2021, the contributions to the Plan were as follows:

	Miscellaneous	Safety	Total
Contributions - employer	$31,769	$835,951	$867,720

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2021, the District reported net pension liabilities for its proportionate shares of the net pension liability of each Plan as follows:

	Proportionate Share of Net Pension Liability
Miscellaneous	$212,552
Safety	7,071,016
Total	$7,283,568

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2020, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of June 30, 2019 and 2020 was as follows:

	Miscellaneous	Safety
Proportion - June 30, 2019	0.00530%	0.10142%
Proportion - June 30, 2020	0.00531%	0.11327%
Change - Increase (Decrease)	0.00001%	0.01185%

NOTE 7 – PENSION PLAN (Continued)

For the year ended June 30, 2021, the District recognized a pension expense of $562,510 for the Plan on the Statement of Activities. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$867,720	
Differences between actual and expected experience	559,274	
Changes in assumptions		($25,070)
Change in employer's proportion and differences between the employer's contributions and the employer's proportionate share of contributions	387,034	(473,026)
Net differences between projected and actual earnings on plan investments	159,997	
Total	$1,974,025	($498,096)

The $867,720 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year 2021-22. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30	Annual Amortization
2022	$147,750
2023	216,306
2024	164,121
2025	80,032
Total	$608,209

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Miscellaneous	Safety
1% Decrease	6.15%	6.15%
Net Pension Liability	$303,446	$10,935,009
Current Discount Rate	7.15%	7.15%
Net Pension Liability	$212,552	$7,071,016
1% Increase	8.15%	8.15%
Net Pension Liability	$137,449	$3,900,244

NOTE 7 – PENSION PLAN (Continued)

Actuarial Assumptions – For the measurement period ended June 30, 2020, the total pension liability was determined by rolling forward the June 30, 2019 total pension liability. The June 30, 2020 total pension liability was based on the following actuarial methods and assumptions.

Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	(1)
Investment Rate of Return	7.15% (2)
Mortality	Derived using CalPERS' Membership Data for all Funds (3)
Post Retirement Benefit Increase	Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies

(1) Depending on age, service and type of employment
(2) Net of pension plan investment expenses, including inflation
(3) The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using the Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report based on CalPERS demographic data from 1997 to 2015 that can be found on the CalPERS website.

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2019 valuation were based on the results of a December 2017 actuarial experience study for the periods 1997 to 2015. Further details of the Experience Study can be found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability for the Plan was 7.15%. The projection of cash flows used to determine the discount rate for the Plan assumed that contributions from all plan members in the Public Employees Retirement Fund (PERF) will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

NOTE 7 – PENSION PLAN (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical and forecasted information for all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects the expected real rates of return by asset class.

Asset Class[1]	Assumed Asset Allocation	Real Return Years 1 - 10[2]	Real Return Years 11+[3]
Global Equity	50.0%	4.80%	5.98%
Global Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
Total	100%		

(1) In the CalPERS Comprehensive Annual Financial Report, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

(2) An expected inflation of 2.00% used for this period.

(3) An expected inflation of 2.92% used for this period.

In May 2020, the District entered into an agreement with the California Public Employees' Retirement System (CalPERS) in order for the District to participate in the California Employers' Pension Prefunding Trust (CEPPT). Through contributions to the CEPPT, the District sets aside moneys to meet its future pension contributions or unfunded liabilities. Financial statements of CalPERS may be obtained from CalPERS Financial Office, P.O. Box 942703, Sacramento, CA, 94229-2703.

Pension Plan Fiduciary Net Position – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

NOTE 8 – OTHER POST EMPLOYMENT HEALTHCARE BENEFITS (OPEB)

A. General Information about the District's Other Post Employment Benefit (OPEB) Plan

Plan Description – The District's Post Employment Benefit Plan is an agent-multiple employer defined benefit OPEB plan. Provisions of retiree benefits are as follows:

OPEB provided: The District reported the following OPEB: medical, dental, and vision plan coverage. However, only retiree medical premiums are subsidized by the District.

Access to coverage*:* Medical coverage is currently provided through CalPERS as permitted under the Public Employees' Medical and Hospital Care Act (PEMHCA). This coverage requires the employee to satisfy the requirements for retirement under CalPERS: either (a) attainment of age 50 (age 52, if a miscellaneous employee new to PERS on or after January 1, 2013) with 5 years of State or public agency service or (b) an approved disability retirement.

The employee must begin his or her retirement warrant within 120 days of terminating employment with the District to be eligible to continue medical coverage through the District and be entitled to the employer subsidy described below. If an eligible employee is not already enrolled in the medical plan, he or she may enroll within 60 days of retirement or during any future open enrollment period. Coverage may be continued at the retiree's option for his or her lifetime. A surviving spouse and other eligible dependents may also continue coverage and receive benefits.

Benefits provided: The District currently pays 100% of the monthly medical premium for ***active employees***, their spouses and other eligible dependents up to the PERS Choice Basic premium rates (i.e., the pre-Medicare premium rates) for the Bay Area region. The maximum amounts paid by the District vary are equal to the Basic (pre-Medicare) PERS Choice rate for the coverage level selected (i.e., single, two party or family).

Board members: To be eligible for subsidized retiree medical benefits, members of the Board of Directors (who are not also retired employees) must serve at least two, four-year terms on the Board. For retired Board members completing this service, the District contributes 100% of employee only premiums, not to exceed the PERS Choice premium for employee only coverage.

For the year ended June 30, 2021, the District's contributions to the Plan were $524,377.

Employees Covered by Benefit Terms – Membership in the plan consisted of the following at the measurement date of June 30, 2021:

Active employees	23
Inactive employees or beneficiaries currently receiving benefit payments	16
Inactive employees entitled to but not yet receiving benefit payments	0
Total	39

NOTE 8 – OTHER POST EMPLOYMENT HEALTHCARE BENEFITS (OPEB) (Continued)

B. Net OPEB Liability

Actuarial Methods and Assumptions – The District's net OPEB liability was measured and determined based on the following actuarial methods and assumptions:

	Actuarial Assumptions
Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal Cost
Amortization Method	Level percent of pay
Actuarial Assumptions:	
Asset Valuation Method	Market value of assets
Discount Rate	6.45%
Salary Increase	3.00%
General Inflation Rate	2.75%
Mortality Rate	MacLeod Watts Scale 2018 applied generationally[1]
Healthcare Trend Rates	6.5% decrease to 4% for 2076 and after

[1] The MacLeod Watts Scale 2018 was developed from a blending of data and methodologies found in two published sources: (1) the Society of Actuaries Mortality Improvement Scale MP-2017 Report, published in October 2017 and (2) the demographic assumptions used in the 2017 Annual Report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and Federal Disability Insurance Trust Funds, published June 2017.

The District has been and continues to prefund its OPEB liability, contributing 100% or more of the Actuarially Determined Contributions each year. With the District's approval, the assumed trust rate and discount rate applied for accounting purposes in this report is 6.55%, reflecting the District's expectations as of the measurement date. Actuarially Determined Contributions for plan funding purposes were developed using a 6.45% discount rate, equal to the assumed trust rate of return less 0.1% for trust administrative fees.

Demographic actuarial assumptions used in this valuation are based on the 2017 experience study of the California Public Employees Retirement System using data from 1997 to 2015, except for a different basis used to project future mortality improvements. Mortality rates used were the CalPERS published rates, adjusted to back out 15 years of Scale MP 2016 to central year 2015.

NOTE 8 – OTHER POST EMPLOYMENT HEALTHCARE BENEFITS (OPEB) (Continued)

C. Changes in Total OPEB Liability

The changes in the total OPEB liability follows:

	Increase (Decrease)		
	Total OPEB Liability (a)	Fiduciary Net Position (b)	Net OPEB Liability (c) = (a) - (b)
Balance at 6/30/2019	$4,145,958	$2,976,116	$1,169,842
Changes Recognized for the Measurement Period:			
Service cost	235,284		235,284
Interest on the total OPEB liability	279,934		279,934
Changes of benefit terms			
Differences between expected and actual experience			
Plan Experience			
Administrative Expenses		(1,544)	1,544
Other Expenses			
Changes of assumptions			
Contributions from the employer		573,868	(573,868)
Benefit payments	(214,868)	(214,868)	
Net Expected Investment Income		182,800	(182,800)
Net changes	300,350	540,256	(239,906)
Balance at 6/30/2020 (Measurement Date)	$4,446,308	$3,516,372	$929,936

D. Sensitivity of the Net OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rates

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

Net OPEB Liability/(Asset)		
Discount Rate -1% (5.55%)	Current Discount Rate (6.55%)	Discount Rate +1% (7.55%)
$1,540,900	$929,936	$428,065

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates (8% decreasing to 5%):

Net OPEB Liability/(Asset)		
1% Decrease	Current Healthcare Cost Trend Rates	1% Increase
$380,130	$929,936	$1,611,430

NOTE 8 – OTHER POST EMPLOYMENT HEALTHCARE BENEFITS (OPEB) (Continued)

E. OPEB Expenses and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2021, the District recognized OPEB expense of $244,613. At June 30, 2021, the District reported deferred outflows and inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Employer contributions made subsequent to the measurement date	$524,377	
Differences between actual and expected experience		($651,359)
Net difference between projected and actual earnings on investments	10,589	
Changes of assumptions	241,525	
Total	$776,491	($651,359)

$524,377 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as part of OPEB expense as follows:

Year Ended June 30	Annual Amortization
2022	($65,506)
2023	(64,207)
2024	(61,454)
2025	(64,530)
2026	(80,197)
Thereafter	(63,351)
Total	($399,245)

NOTE 9 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the District obtains insurance coverage.

Public entity risk pools are formally organized and separate entities established under the Joint Exercise of Powers Act of the State of California. As separate legal entities, those entities exercise full powers and authorities within the scope of the related Joint Powers Agreements including the preparation of annual budgets, accountability for all funds, the power to make and execute contracts and the right to sue and be sued. Each risk pool is governed by a board consisting of representatives from member municipalities. Each board controls the operations of the respective risk pool, including selection of management and approval of operating budgets, independent of any influence by member municipalities beyond their representation on that board. Obligations and liabilities of these risk pools are not the District's responsibility.

NOTE 9 – RISK MANAGEMENT (Continued)

Fire Agencies Insurance Risk Authority

The District is insured for Comprehensive Liability and Automotive and Property Damage coverage as a member of the Fire Agencies Insurance Risk Authority (the Authority). The Authority is a public agency risk pool created pursuant to a joint powers agreement between the numerous member fire agencies. The Authority manages one pool for all member agencies. Each member pays an annual premium to the system based on numerous factors including the number of personnel, types and values of assets held. The following coverage limits and deductibles are listed as follows:

Coverage	Limit	Deductible
General Liability	$1,000,000	$0
Personal and Advertising Injury	1,000,000	0
Fire Damage Legal Liability	1,000,000	0
Medical Expense (each accident)	10,000	0
General Aggregate	10,000,000	0
Products/Completed Operations Annual Aggregate	10,000,000	0
Management	1,000,000	5,000
Cyber	1,000,000	0
Automobile	1,000,000	5,000
Garagekeepers Legal Liability	500,000	250-500
Umbrella Liability	10,000,000	5,000
Crime	2,000,000	1,000

Fire Districts Association of California – Fire Association Self Insurance System

Effective September 1993, the District became self-insured for Workers' Compensation coverage as a member of the Fire Districts Association of California – Fire Association Self- Insurance System (the System). The System is a public agency risk pool created pursuant to a joint powers agreement between the numerous member fire agencies. The System manages one pool for all member agencies. Each member pays an annual premium to the system based on the number of personnel, an estimated dollar amount of payroll and an experience factor. At fiscal year-end, when actual payroll expenditures are available, an adjustment to the year's annual premium is made. The System reinsures through the Local Agency Excess Workers' Compensation Authority (LAWCX), a joint powers authority, for claims in excess of $750,000 for each insured event. The District's claims did not exceed coverage over the last 3 fiscal years.

NOTE 10 – JOINT VENTURE

A. Marin Emergency Radio Authority

The District entered into a Joint Powers Agreement in February 1998, establishing the Marin Emergency Radio Authority (the Authority). The Authority is responsible to acquire, construct, and improve a countywide emergency radio system. During the year ended June 30, 1999, the Authority issued Revenue Bonds to be used for the acquisition of the radio system. Of the $27 million in Revenue Bonds, the District's share was for 0.812%, or approximately $219,000. Each year through August 2020, approximately $14,000 annual debt services payments were due to the Authority. Including interest and principal, the District's total obligation over 20 years was approximately $288,000. In addition to making payments toward debt service, the District pays the Authority for operations and maintenance of MERA.

The financial statements of the Authority are available at the Authority's website: http://www.meraonline.org.

B. Marin Wildfire Prevention Authority

The District entered into a Joint Exercise of Powers Agreement in October 2019, establishing the Marin Wildfire Prevention Authority (the Authority). The Authority is responsible to plan, finance, implement, manage, own and operate a multi-jurisdictional and county-wide agency to prevent and mitigate wildfires in Marin County. The Authority is funded by a parcel tax measure which was approved by the voters in Marin County on March 3, 2020.

The financial statements of the Authority are currently unavailable.

NOTE 11 – ARTICLE XIII OF THE STATE CONSTITUTION

The Constitution of the State of California allows local governments to increase appropriations annually by the rate of population increase and the rate of inflation (determined to be the lesser of the U.S. Consumer Price index or California per capita income). As provided by California Statute, the voters of the District voted by more than the two-thirds majority required, to increase the appropriations limit to the actual amount of taxes collected.

Appropriations Limit	$6,571,555
Annual subject appropriations	6,571,555
Amount (over) under the Appropriations limit	$ -

NOTE 12 – COMMITMENTS

The District has a memorandum of understanding (MOU) with the Kentfield Association of Professional Firefighters (the Union) that provides various terms of employment.

**INDEPENDENT AUDITOR'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors
Kentfield Fire Protection District
Kentfield, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the Kentfield Fire Protection District (District), California, as of and for the year ended June 30, 2021, and have issued our report thereon dated November 28, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

F 925.930.0135
E maze@mazeassociates.com
W **mazeassociates.com**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We have also issued a separate Memorandum on Internal Control dated November 28, 2021 which is an integral part of our audit and should be read in conjunction with this report.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
